

DAN RATLIFF WEB DESIGN

Hello,

My name is Dan Ratliff and I am a web designer located just outside of Indianapolis, Indiana. I am contacting you today to introduce myself, what I do and what I can provide for your company.

I have been designing websites for all types of retail, organizational, special interest and e-commerce interests for 7 years now. My rates are reasonable and always 100% negotiable. I design graphics and websites for all types of budgets from big to small. Estimates are always free, and there is never any obligation. We specialize in redesigns and abandoned sites, so please contact me if you are sick of your old site or just need it updated.

Please visit my website at: www.ratliffdesign.net for more information and to view extended descriptions of our services and packages. Also on our website you will find our design gallery, promotions, and alternate means by which to contact us.

Some of my services are listed below, and if you are interested in something not listed, please contact me directly and we can discuss it.

Website Design

- * We create very informative, visually appealing, and customer friendly websites for all of our clients.
- * Please view our gallery online at www.ratliffdesign.net for some samples of our work.

Graphics and Logo Design

- * Let us design your logo or special graphic for your business. We use state of the art equipment and have a great eye for dazzling colors and layouts.

Content Management Systems

- * These database driven websites are becoming more and more popular everyday.
- * They are great for storing, searching, archiving and accessing (by level access) large amounts of documents and data.
- * You can even decide that you want to update this site yourself after it is designed!
Training is free and then YOU are in control!
- * Please view our gallery online at www.ratliffdesign.net for some samples of our work.

Other Design Services We Provide (but not limited to):

- * Image Editing
- * Payment Processing
- * E-Commerce Sites (Selling Online)
- * Redesigns
- * Photo Galleries
- * Family Websites
- * Design Concept
- * User Interface Design
- * Consulting
- * Slide shows and power point presentations!
- * Secure Website

Thanks, and have a great day!
